

Regent Asset Management Solutions

In this economy, what are you willing to do to learn a skill that pays from \$3,000 to \$5,000 per month within 30 to 90 days, no sales involved, and is a job that is always in high demand regardless of what is happening in the economy? Are you willing to put in a couple days of study time and attend some training for a couple of weeks?

We are offering a limited opportunity to in our Arizona location to be trained in the lucrative field of third party debt collection. No prior experience in this field is required. We will train the right people and if you're good on the phone, you will always be in high demand and never unemployed, even in the worst economic times. By-the-way, it's 100% telephone work, no face-to-face collection!

In debt collection, you control your income. The more money you collect, the bigger your paycheck. Once trained, first year earnings with commission typically range from \$35,000 to \$45,000. Within 2 to 3 years earnings easily range from \$45,000 to \$60,000. Skilled collectors earn from \$60,000 to \$130,000 per year. Debt collection is one of the most stable jobs of all industries. A good collector can get a job anywhere and in any economy. In fact, the worse the economy gets, the more business we get, so collection agencies look even harder for good collectors.

So in just 14 to 30 days from now you could either still be looking over these ads for a job or you may well be on your way to a \$35,000 to \$100,000 per year income. Here's what you need to do:

1. Applicants must leave a detailed message on our phone system and tell us about themselves. Effective debt collection comes from having an ability to speak on the phone with energy, confidence and firmness. We want to hear your voice and listen to what kind of impression you make when speaking on the phone. You don't need to be an English professor or speak perfectly.....we don't care about that. We'll train you on what to say, but you must at least be able to speak effectively and persuasively, because debt collection is all telephone work.
2. The applicant must take a couple of days to study and learn the Fair Debt Collection Practices Act (FDCPA) on his/her own time, then pass an examination on FDCPA. We are looking for those who have the initiative to take some time from their day to learn the laws of this industry and pass a basic test on those laws. This is usually achieved in just 2 to 3 days.
3. We offer an hourly base of \$11.53 plus 10% unlimited commission after a person has completed their orientation period. Compensation during the orientation period is paid by straight commission of 10% of every gross dollar collected. When a trainee has developed their telephone skills to recover \$5,000 in a 5 day period, the person is eligible to be paid an hourly base plus commission. Most trainees are eligible for hourly pay after just a week or two. Within just 2 to 3 months, you should easily be earning \$3,000 to \$5,000 per month.

So there you have it.

Regent Asset Management Solutions

You invest a couple days of study time, be willing to work on straight commission a week or two while you learn, and with our training and our system an average collector can earn from \$35,000 to \$100,000 per year.

To get started, call Regent Asset Management Solutions at 623-201-4664 and tell us about yourself. We ask that you please do not contact our other sites or attempt to fax, mail or email to us. All applications and interviews are by appointment only. Start today by calling us at 623-201-4664.

We look forward to hearing from you!
